🎓 EDUCATION

Computer Science

Oviedo University

📅 Sep 2008 - Jul 2013

★ SKILLS

- Frontend: JS, TS, React, Apollo, Web3, GraphQL, CSS, AntD, BFF, Micro-frontend, styled, Jest, testing-library, monorepo.
- Backend: Node, Go, Express, SQL & NoSQL DBs, Redis caching, design patterns, DDD, Docker, AWS services, Supabase, Serverless
- Quality: Type-checking, testing strategies, clean code, TDD

📄 CAREER OBJECTIVE

Senior Software Engineer with 10 years of experience in web technologies, specializing in startups using cutting-edge tools. Adaptable, open to new ideas, and skilled at mentoring while delivering high-quality code.

👤 WORK EXPERIENCE

Senior Software Engineer

90poe.io

📅 Nov 2022 - current

📍 London/Remote

- Revamped business-critical map, boosting readability, maintainability, and tech alignment; drove React and AntD migrations. Frontend platform team member using React, TypeScript, monorepo, microfrontends, and Apollo, meeting all tech directives and high-quality standards; contributed some Go.

Founder

CrimeMapX.com

📅 June 2025 - current

📍 Remote

- Launched end-to-end product as tech lead—drove features, requirements, and go-to-market with React, Next, Deno, TypeScript, and Supabase. Managed specs, development, QA, and marketing.

Senior Software Engineer

OXA Tech

📅 Jul 2022 - Nov 2022 (contract)

📍 London/Remote

- Web3 projects for a London-based startup. Next, TS, ethersjs.

Senior Software Engineer

Casebook PBC

📅 May 2021 - Jul 2022 (contract)

📍 US/Remote

- Working in a micro-services frontend architecture (BFF-based) with React, TS, and GraphQL

Senior Software Engineer

Feedr

📅 May 2020 - May 2021

📍 London/Remote

- Contracted with a scale-up startup to lead a technical transformation using React and NodeJS, enhancing system efficiency.

Senior JS Engineer

Spotahome

📅 Feb 2019 - Apr 2020

📍 Madrid/Remote

- Senior role mentoring junior developers, helping the squad delivering stuff and building transversal tools with React, GraphQL and Node on a BFF architecture.
